“ Tony was my father. We didn't always agree but we loved each other. We were both difficult and hard men. The apple doesn't fall far from the tree. That's a direct quote from his wife Loretta who was a mother to me. My heart will always ache to see him again. God bless our family.

“ I worked with Tony a while back, what a card. He was kind, funny, helpful and the residents loved him. He spoke very highly of his "bride" and family. Ms. Loretta, I know we have not met, but please know myself and family are keeping you and your family in our thoughts and prayers.
