“ We went to wish you a happy birthday today and realized that you had made your transition. We met through church way back in 2000. As others are saying you definitely could play the piano well and it was a joy to be around you. You were always uplifting. You will be missed! Love and light John

“ John Jobes was more than just a friend to us he was family! We always had good times in person at church in Pinellas County or on phone in Michigan. He loved his family and friends so much! I just found out He passed and so our prayers are with Johns family and friends! We have this picture of Him and will always remember His wonderful humor and good advice he gave to us! We will miss Him with all our hearts! He always quoted Whoopi Goldberg in Ghost and the Muchkin land in wizard of oz. He played piano like a professionalist and I am sure those that heard him know He was great in that. WE knew about his being in service and thank him for His service. Love and Light John Jobes! Your home now and it is beautiful in Heaven beyond our wildest dreams! Over the rainbow would be the song I leave with you!

“ *Brother, you are always in my heart, though now I feel half of me is gone. How we used to know when each other was sick or calling or something was going wrong. I knew you were going to go with mom around her birthday, but I was so hoping I was wrong, as usual our gift was right you didn't have to tell me so. I miss you so much and it hurts so bad but I know that Jesus has you and for that I am glad. Rest In Peace for he is taking care of you now until I can be with you again in heaven somehow.* ”
