“ Lois was and always will be the perfect example of Motherhood. Always there for her children ,grandchildren .Someone whom we can all look up to. A kind hearted soul whom at times could really let you have her piece of mind. I say that from personal experience. Always constructive not malious. I will really miss her. She is now with my Brother Floyd. He's probably catching the fish and she's canning pickles and the like. Back together at last. All my love Your Sister in law, Cathy
