“ In 1985, fresh out of graduate school and starting my first professional job at Lake Superior State University, I was a Southern girl with very little experience living in the “true north”. My concept of snow was a few inches maybe in January. Marge was the first—and best—friend I made in the Soo. Even though I did meet my late husband while living in SSM, Marge helped me navigate the UP way of life, and was with me to help celebrate my marriage. I still cherish the beautiful framed watercolor—painted by her mom—she gave me as a wedding present. I have just today learned of Marge’s passing, and my heart has an empty place in it. I didn’t know she had been ill, and I had imagined visiting her in Summer 2026. I see that a memorial service for her will be held this summer, and I very much would like to learn when and where so that I may attend and honor her life. Love, Janet Harvey-Clark

“ Sincere condolences to Marge’s family. I worked a brief time at community action with Marge and she was always a joy to work with. I know she will be happy to be home with the Lord and her parents.
