

## Patricia Anne Scott

October 25, 1936 - May 23, 2020

Patricia Ann Scott, age 83, of Newberry, Michigan, formerly of Clio, Michigan, passed away peacefully on May 23, 2020 in Newberry. She was born to Stephen Lamar Briggs and Dorothy Lucille (Mudge) Briggs of Davison.

Pat was a mom, grandma, and animal lover, especially cats and any stray that came to her was well loved and cared for. She was a registered nurse and worked many years for Dr. Paul J. Markunas in Otisville, Michigan. Pat was very talented and spent time wherever she lived painting, wallpapering, and decorating to make a place homey. She loved sewing and making matching outfits for granddaughters and their dolls. She was very active and enjoyed swimming, sailing, skiing, golf, scuba diving, bike riding, camping, bowling, fishing, travel, skating, playing ringette (women's hockey), finding treasures at the beach, music, going to the movies with friends, books, TV, popcorn and fudge, making cookies for grandchildren, picnics and enjoying time with family and friends. She loved to laugh, joke and have a good time. She was naturally funny and would keep you laughing. Her high school yearbook described her as "Dancing eyes and an ever-ready smile". Most of all she was known for her gardening. She loved flowers & vegetables. She would always plant extra to share with all. If you went to her house in the summer, more than likely you would find the sign on the door: "I'm in the Garden".

She will be deeply missed until we see her again.

Pat is survived by her daughter, Theresa (Wayne) Blakeley of Hulbert, Michigan; son, Michael Scott (Beth) of Lampasas, Texas; and daughter in law, Paula Scott of Grand Blanc, Michigan; grandchildren, Bambi Blakeley, Taffi (Jeff) Allen, Danyelle(T.J.) Stasiak, Ethan (Kathleen) Scott, Austin (Sarah) Scott, Noah Scott, and Michael S.(Kristina) Hiler; great grandchildren, Kayden, Ava & Zeb Holderbaum, Wyatt, Melina, Alora & Quade Allen, Lillie Demo, Bella & Evie Stasiak, Travis & David Schuster, Kalista & Jordan Hiler; sisters, Betty (Art) Evatt and Donna (Michael) Foran; and many nephews, nieces, and precious friends, especially Frankie Hardy & Karen Campbell, who are like family.

Pat was preceded in death by her parents and son, Daniel Scott.

No services are planned at this time.

Please consider donations in memory of Pat to the animal shelter of your choice.

R. Galer Funeral Home in Pickford, Michigan is serving the family.  
Condolences may be sent to the family at [www.rgalerfuneralhome.com](http://www.rgalerfuneralhome.com).

DO

“ Love that photo of my sister Pat in her nurses uniform. She was always so pretty. I think she was voted Most Popular in her high school year book.

*I enjoy remembering Pat because she was so fun-loving and would always make me laugh.*

*When she came out to visit she would always bring us something--from her garden, her yard or her closet. She loved to give gifts.*

*One time she brought me flower bulbs and wouldn't tell me what they were. "Just plant them and see" she said. And they came up and were BEAUTIFUL FLOWERS--All different colors and types. I think they were dahlias.*

*She was always great with the kids--very funny and witty. And she loved to play games, more memories coming. . . .*

“ In Loving Memory...

*This woman touched the lives of so many, whether family, friend, or stranger. She was the fun-loving Mother, Grandma, Great Grandma, Aunt, Sister and devoted, loyal friend. She touched the lives of countless strangers through many years of nursing, even stitching up Don Brewer's head after a Grand Funk concert.*

*Aside from being family, we also worked together for a time. I will never forget the time a bird flew in the office and fell behind the filing cabinets. Some people would have thought her 'elderly' by her age, but she hopped right up on top of them and said 'I have this. You attend to patients.' I was in a room with one when I heard a victory whoop followed by a cry of surprise. As I rounded the corner to check on her, all the drawers to the filing cabinets were falling open and she was teetering on top so they wouldn't fall over. As I tried to shut them all, she was more concerned about the little bird than an impending mess or her toppling off 😂 She was always a caregiver-whether you were human or animal 💖*

*She's the reason I will never garden or eat fresh peas without thinking of her. She always planted extra for me and most of them never made it in the house come 'picking time'. I would just go down the rows, eating them as I went. She's the reason I am blessed with such an amazing family. Amazing. My love to you all in dealing with her loss 💔*

*She will be missed 💕💕*

**Taffi Allen** - May 29, 2020 at 12:44 PM

“ She was my mom. I loved her dearly. My husband ,Wayne and I were thankful to have her up here in the U.P. near us to spend time with her a few times each week, Spring, Summer and Fall and be there for her in her time of need.

She was an adventurous ,vivacious, fun loving woman that loved life. She loved her family. She loved people. When she met someone they were no longer a stranger. She was a Registered Nurse, a natural occupation for a nurturer. She loved animals, especially cats and had many....if a stray wandered in she loved and cared for its needs and took it in as her own.

She loved keeping in touch and if you were ever a recipient of one of her letters you know what I mean. At the end of a very long informative letter if she ran out of room and still had much to say...around the page she would go and another laugh you would have as you tried to find out...the rest of the story!

She was an awesome gardener. She loved planting and nurturing flowers but especially vegetables. She would work in the dirt all day and loved it. She always planted more than she needed so that she would have extra to share with family, friends and others. Our daughters, Bambi Lynn and Taffi Nicole had treasured memories of spending time with her and her cats picking goodies in the garden. They both have inherited her quality of nurturing.

Her death has left a hole in our hearts, yet we yearn for the time in the future when death will be no more and the sadness that goes with it. ( Revelation 21: 3 & 4 ) In the Lord's prayer at Matthew 6:9 & 10 we are praying for God's kingdom...for his will to be done here on earth as it is in heaven.

I recently found her bible when cleaning out her nightstand and many of these scriptures she had marked. She was looking forward to these conditions on earth ( Psalm 37:9,10,11 & 29 ) When the bad conditions are gone and the meek will live forever on the earth, the planet our heavenly Father created for us humans to enjoy with everlasting life.

We look forward to the fulfillment of Job 33:25, and Jesus himself described death concerning his friend Lazarus at John 11:11. He likened death to sleep. We are assured to the condition of the dead

at ( Genesis 3:19, Ecclesiastes 9:5&10, & Psalm 146:4 )

*So in death we are just resting with no thoughts. We are looking forward to the time in the not too distant future when our savior Christ Jesus will call and the dead will be resurrected back to life on this earth. (John 5: 28&29) So their afflictions will be done away with. They will be rid of their physical, mental and emotional woes of the past, the ravages of old age. ( Isaiah 35:5&6 ) We will be able to embrace them, welcome them back and love them like God intended.*

*In Matthew 24:3-14 Jesus told his apostles the signs to look for in the last days. This world is in such a mess and soon to pass away of it's present conditions ( 1 John 2:17 )*

*Our desire is to listen to his word, obey what it says and be blessed with a beautiful eternal future on a paradise earth...to be there when she returns full of life, healed from sin and imperfection...along with many others that have fallen asleep in death. So we want to be there to work along side her in the garden... How about you?*

*Love to all,*

*Terri & Wayne*

*P.S. We want to thank family and friends for their visits and cards and letters to her over the past many years she was up here... it meant a great deal to her and us also...especially when she was no longer able to answer back. Also to her many special caregivers at Golden Leaves that took such good care of her like family...it was felt by her and us.*
