Roger wa a good friend of mine. He spoke of Donny Harper all of the time. Our song was "ain't No Sunshine" by Ben Harper. I had the absolute pleasure of cooking him and his roommate Rich their very last homemade meal. We considered ourselves a family in Mount Clemens. Loretta and Daphne and Carmen were their joy! Roger told great stories of the UP and working construction. He played guitar for us many many times. I miss my friend! Godspeed Roger!
